Homepage

This is the homepage of the website, in order to access date, notes, and grades, you must login to your account. If you do not have an account, you can create one.

Database

   Layout of our app's JSON File containing user info. Here, give each user an id, record their name, email, and password. We also see when it was created, last updated, and if it was deleted at any point.

```json
{
    "users": [
        {
            "id": 1,
            "name": "John Doe",
            "email": "jdoe1@gmail.com",
            "username": "jdoe1",
            "password": "XYU9eR{5<AW2fgfg",
            "created_at": "2020-01-01 00:00:00",

```

Calendar

Calendar

February 2022						
Sunday	Monday	Tuesday	Wednsday	Thursday	Friday	Saturday
		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28					

The user can access a calendar as a breakdown task based upon date and time. Users can also be used as writing notes for upcoming deadlines or any occurring meeting that has been scedules.

Weekly Planner

On the weekly planner tab, you can add task to the to do list as well as to the day of the week.

Reminder

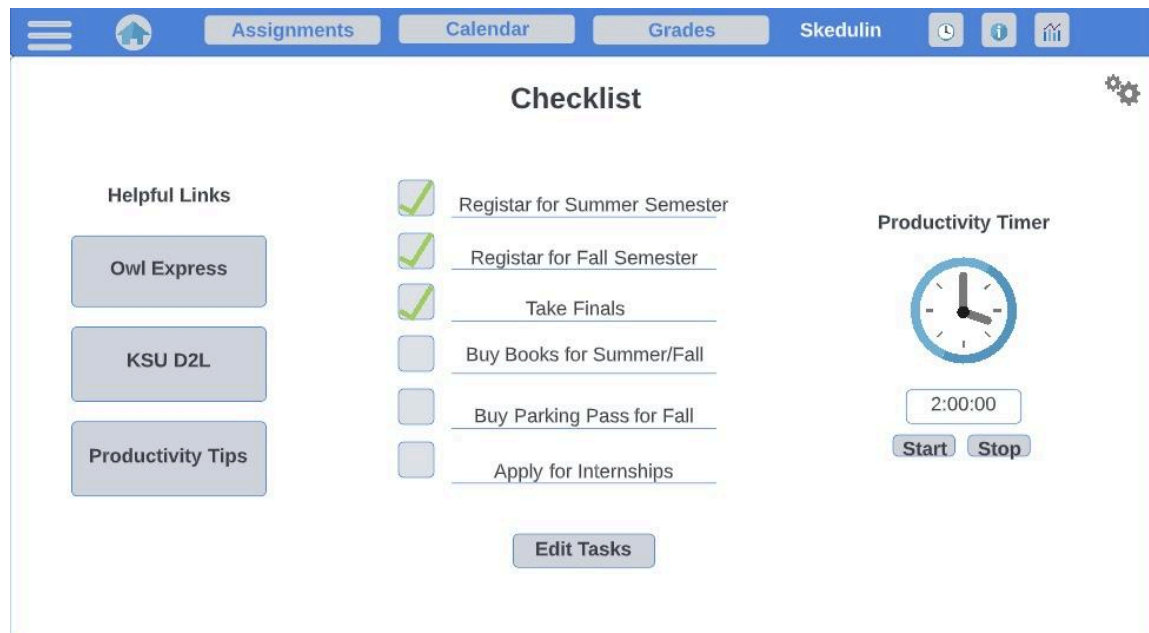

The Reminder landing page allows for the user to have a quick glance at upcoming reminders. It also allows them to select a day to view reminders if they need to glance ahead to a specific date. They can also add a reminder by clicking on the 'ADD REMINDER' button where by doing so they can name the reminder, select a date and time from the drop down for a notification, choose the reminder to be assigned to a specific class and/or a priority level from the drop down options, and finally, add notes about the reminder.

Checklist

A checklist page where the user can add and remove tasks, and the user can access a productive timer as well as other helpful links.

Notes

For the notes tab, you can create a note by clicking the add button. When you select your notes, you can type in notes on the right side.

Grades

The grades tab allows the user to create a tab for there class and add in grades for that specific class.
